

# I DON'T PITY ASSHOLES

Music & Lyrics: M. Lenngren, Browsing Collection

## Verse:

They used to be people just like us  
*(They used to be people that you trust)*  
But they screwed up and now they're all dead  
*(Now when they're dead, well, off with their heads)*  
You thought you knew them and they did too  
*(You thought you knew them but what should you do)*  
Even the strongest you'd never expect  
*(Even the closest weren't perfect)*

## Chorus:

I'm back *(she's back)*  
And that's a fact  
I survived the first light  
I'm back *(she's back)*  
And that's a fact  
I fumbled through the dark night  
Cause I run when you stay  
I am gone and you pray  
Pray for others downfall  
I'm back *(she's back)*  
And that's a fact  
I don't pity assholes

## Verse 2:

No one is trying to find the cure  
*(No one is trying and that's for sure)*  
The city lays covered in dust and dirt  
*(The bombers should now be put on alert)*  
Ooh it's about time we kill them all  
*(It's about time we rise, they fall)*  
Now close your eyes and count to three  
*(Imagine a world that's zombie free)*

## Bridge:

They're in my head  
They're everywhere
