

THANK GOD IT'S FRIDAY

Music: M. Brander, C. Karlsson, M. Lenngren, N. Lenngren

Lyrics: M. Lenngren

Verse 1:

It's not about my job, okey
Ain't 'bout the work that I do to pay
It's not the things they say to me
It's not about who I want to be
We're all the same

It's not about my history
Ain't 'bout the past, it's a mystery
It's not the plans I made today
Not what I want, go sing hip hooray
We're all insane

Pre-Chorus:

Thank God it's friday (it's friday)
The weekend starts tonight
Things go my way

Chorus:

It's all about the neon lights, the coke and fries
One step closer to the line
Weekend life's what I decide
Time just flies away

Verse 2:

It's not the diets it's the feast
The people that lets you take a seat
It's not the beauty or the beast
Not even all gentlemen you meet
They're all the same

It's not about the car you drive
The life that you can't afford to buy
That special dress that makes you feel
All satisfied, not about those things
They're all insane
